**Cost — Free**

**Pre-Registration  
Required**

**SUPPLIER  
BRIEFING**

Join us on Thursday, May 31, 2018, for a presentation from BAE Systems. Representatives from BAE Systems will discuss supply chain opportunities, including information on how to become a supplier for BAE.

BAE Systems, a global defence, aerospace and security company, sells a wide range of products and services for air, land, and naval forces as well as advanced electronics, security, information technology, and support services. Providing some of the world's most advanced technology-led defence, aerospace and security solutions, BAE works with local partners in developing, engineering, manufacturing and supporting products and systems to deliver military capability, protect national security and people and keep critical information and infrastructure secure.

BAE requires a strong supply chain that includes almost 27,000 suppliers worldwide. If you'd like to become one of those suppliers, you will want to attend this *free* session. Seating is limited and pre-registration is required, so register today at the link provided below.

**Required pre-registration closes at  
4:00 pm Friday, May 25, 2018**
